

WARNING - READ LABEL BEFORE USE
KEEP OUT OF REACH OF CHILDREN.

ACTIVE CONSTITUENT: 0.1g/kg FIPRONIL in the form of a paste bait.

Ready to use insecticidal bait for the control of certain nuisance ants.

NET CONTENTS: 325g

DIRECTIONS FOR USE:

| SITUATION: | PEST: | RATE: | CRITICAL COMMENTS: |
|--|--|--|---|
| In and around domestic, commercial and industrial buildings (e.g. houses, hospitals, aged care facilities, schools, food processing facilities, offices, shops, motels). | Nuisance ants including: Black House Ant (<i>Ochetellus glaber</i>), White Footed House Ant (<i>Technomyrmex jocosus</i>), Big Headed Ant (<i>Pheidole spp.</i>), Argentine Ant (<i>Linepithema humile</i>), Darwin's Ant (<i>Doleromyrma darwiniana</i>), and other urban and environmental pest ant species. | <p>Medium ant infestations: One cartridge per 1100 square metres (equivalent to 3kg/ha).</p> <p>Heavy ant infestations: One cartridge per 550 square metres (equivalent to 6kg/ha).</p> | <p>The extent and density of the ant population should be assessed before treatment so that the correct rate of bait is applied.</p> <p>Remove cartridge from vacuum bag. Cut tip from bait cartridge and place in dispensing unit.</p> <p>Squeeze small amounts of bait at regular intervals of 1.5-2.5 metres into cracks, crevices and shady places where ants are seen. Bait may take a few days to be fully effective.</p> <p>Repeat if ants re-invade the treated areas or after 12 months.</p> |
| Ecological and conservation areas. | | <p>Broadcast application: This bait may be applied using a broadcast method with specialist application equipment including drones. Maximum application rate equivalent to 6kg/ha. Refer to the manufacturer for technical details.</p> | |

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

NOT FOR AGRICULTURAL OR HORTICULTURAL USE.

WITHHOLDING PERIODS: Not required when used as directed.

GENERAL INSTRUCTIONS:

There may be variations in moisture content between cartridges. This will not alter the bait's attractiveness to ants nor its effectiveness. This product is a fresh bait made of natural ingredients. Once the cartridge is opened use entire contents in one treatment or store in a sealed container in a cool place out of direct sunlight or in a refrigerator separated from food or feed. Use within 3 days. Dispose of any remaining bait in an approved way.

PRECAUTIONS:

DO NOT apply directly to food, food packaging or food contact surfaces. DO NOT place in exposed areas accessible to children, pets and other animals.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:

Highly toxic to aquatic life. DO NOT apply directly into or onto water. DO NOT flush down sewer, drains or allow to contaminate any water supply. Take all reasonable steps to ensure that the substance does not cause any significant adverse effects to the environment beyond the application area.

PROTECTION OF HONEY BEES AND OTHER INSECT POLLINATORS:

Highly toxic to bees. DO NOT apply substance to plants if bees are foraging or the plants are in flower or part flower, and are likely to be visited by non-target invertebrate pollinators (including bees).

STORAGE:

Store in the closed original container in a cool, well-ventilated place out of the reach of children. DO NOT store in direct sunlight.

DISPOSAL:

Shake and empty contents until container is empty. Only dispose of contents in treatment areas. Break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local government regulations. DO NOT burn empty containers or product.

SAFETY DIRECTIONS:

May irritate the eyes and skin. Avoid contact with eyes and skin. Wash hands after use.

FIRST AID:

If poisoning occurs, contact a doctor or Poisons Information Centre.
 Phone New Zealand **0800 764 766**.

SAFETY DATA SHEET:

Additional information is listed in the Safety Data Sheet, which is available from the supplier upon request or from: www.baittechnology.com

DISCLAIMER:

Vanquish Pro Ant Bait is supplied as a high grade product and is suitable for the purpose which it is expressly intended and must be used in accordance with directions for use. The user must monitor the performance of any product as climatic, geographical or biological variables may affect the results obtained.

REGULATORY INFORMATION:

GHS Hazard Classifications:

Very toxic to aquatic life. (Acute Cat 1. H400)
 Very toxic to aquatic life with long lasting effects. (Chronic Cat 1. H410)
 Hazardous to terrestrial invertebrates.

MPI Approved Maintenance Compound
Type D-27 (all animal product except dairy).

HSNO Approval No. HSR000111
